

Gopika A

📞 7907029121 | ✉️ gopika.25mas10037@vitbhopal.ac.in |

Career Objective

Detail-oriented engineering professional with a background in data analysis, SQL, Python and data visualization, with a strong focus on data-driven insights, business intelligence reporting, and improving data quality .

EDUCATION

VELLORE INSTITUTE OF TECHNOLOGY, BHOPAL

M.Tech in Artificial Intelligence and Data Science

2025 – Present

GPA: 9.04

Federal Institute of Science and Technology

B.Tech in Electronics and Communication with Minor in Computer Science Engineering

2020 – 2024

CGPA: 8.13

PROJECTS

Multitasking AI Model in Image Restoration (U-Net, SRNet, DeOldify)

- Designed and implemented a lightweight modular artifact image restoration pipeline.
- Integrated U-Net based inpainting and super-resolution (SRNet-inspired) achieving significant improvements in PSNR and SSIM on degraded image datasets.
- Integrated DeOldify for colorization, creating a three-step upgrading pipeline for damaged artifact images.

Food Ordering and Delivering Robot (Arduino UNO, PHP, SQL, HTML, CSS)

- Designed an autonomous robot that receives orders via an electronic menu and delivers food to customers.
- Developed a chef portal to display and manage incoming orders in real time and built customer E-menu interface supporting order placement and QR-code-based payment.

Explainable AI Sleep Health Assessment System (SHAP, Explainable AI, PubMed)

- Developing an explainable AI framework for sleep condition prediction with strong emphasis on model interpretability and clinician-oriented insights.
- Integrated feature attribution methods (SHAP) and evidence-based reasoning via semantic retrieval from medical literature and implemented real-time medical evidence retrieval and built an interactive chatbot-style explanation interface.

CERTIFICATIONS

Keltron, Kerala State Electronics Development Corporation

Embedded Systems

January 2023

Ernakulam, Kerala

NeST Technologies

Embedded Systems

March 2022

Ernakulam, Kerala

Oracle Cloud Infrastructure 2025

Data Science and GenAI

October 2025

SKILLS

Technical Skills : Data Structures and Algorithms ,OOP, EDA, Feature Engineering,Model Evaluation and Testing, Data Visualisation.

Languages : Embedded C,Python,C++,MySQL.

Tools: TensorFlow, Matplotlib,VSCode, Pytorch, GenAI, Microsoft Excel,Github, Tableau,Docker.
